### *Why choose Saddle Mountain Homes?*

You're not interested in a standard or routine home that you'll see in any given neighborhood. You want a house that's built specifically to suit your needs and desires. Saddle Mountain Homes is committed to providing just that. When you partner with us for your custom home building experience you get a general contractor with years of experience, focusing on creating the perfect home for you. We use energy efficient, energy saving products, like windows, doors, insulation, furnaces, etc to assure you are getting a cost efficient and environmentally responsible home. We work first hand with all of our clients, showing existing house plans, but also designing homes from scratch to meet their **exact** needs.
